What is Google Apps?

"Google Apps" stands for Google Applications. There are quite a number of Google applications. But here for businesses, we are referring to "Gmail" and "GTalk", which can be the most useful tools of your business. e.g.

It is not professional to use a free email services for business. It reflects your credibility. Actually it hurts! But we still want to use the reliability and usability of GMail. Then..

Use GMail and GTalk as

What are the benefits?

Benefits are too many to describe. It's such a great service. Let us mention only a few.

- So reliable.

Technically, we trust Google more than our ISP. Don't you? Their technology is far more advanced, and have recruited the world's best technicians.

- Huge mailbox.

Is 7gb (7,000mb mailbox) is enough?

- So portable.

Use from anywhere. On your phone? From California? Asia? Europe?

How much does it cost?

We charge you a one-time fee of \$50, for our technical service to setup and configure your emails and GTalk.

Google gives you free, but also have \$50 for premium edition
